

“ INVESTACAST CONSTANTLY OUTPERFORM ALL OUR OTHER METAL COMMODITY SUPPLIERS. DELIVERIES ARE PROMPT AND THE QUALITY IS EXCEPTIONAL. ”

Purchasing Manager UK Leading Valve Manufacturer

# WELCOME TO INVESTACAST

## WHO WE ARE AND WHAT WE DO

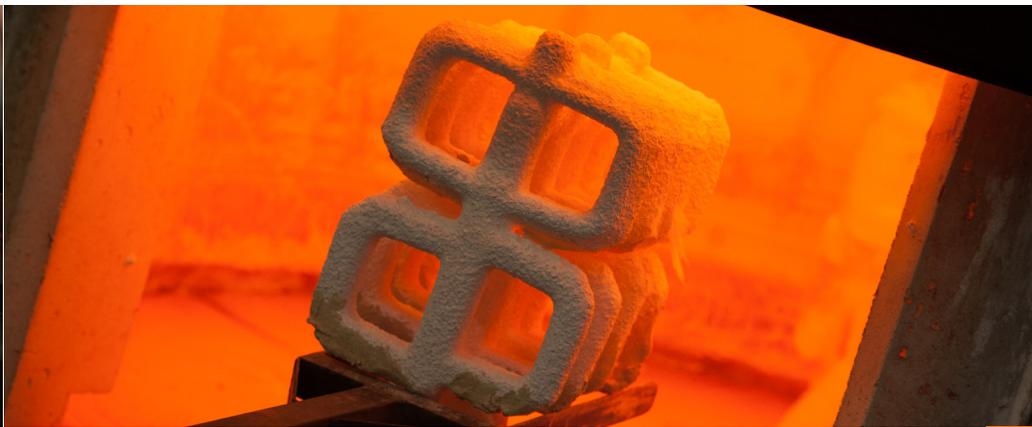

**Investacast is one of the world's leading investment casting companies, providing specialist services to a range of industries in the UK and worldwide.**

Established in 1970, we have a history of working with Valve, Automotive, Semiconductor, Oil and Gas, Communications, Aircraft, Military and Electronics industries.

We offer competitive pricing, superior product and excellent customer service. Through our UK facility and outsource network we manufacture a range of products, from high volume product components to bespoke precision performance parts.

Our business is built on the principles which define traditional British manufacturing – technical innovation, skilled workmanship and quality of product. We have also been pioneering the best cost benefits provided by outsourcing since the 1980s.

Investacast is part of the Expromet Technologies Group which also includes Haworth Castings and Metaltech Precision. Expromet harnesses the capabilities of a group of complementary businesses to deliver world class engineering solutions to customers on a global basis.

# MANUFACTURING SPECIALISTS

## WHY CUSTOMERS USE US

**Investacast customers come to us, and keep coming back, for the simple fact that our experience in the industry makes us experts at what we do.**

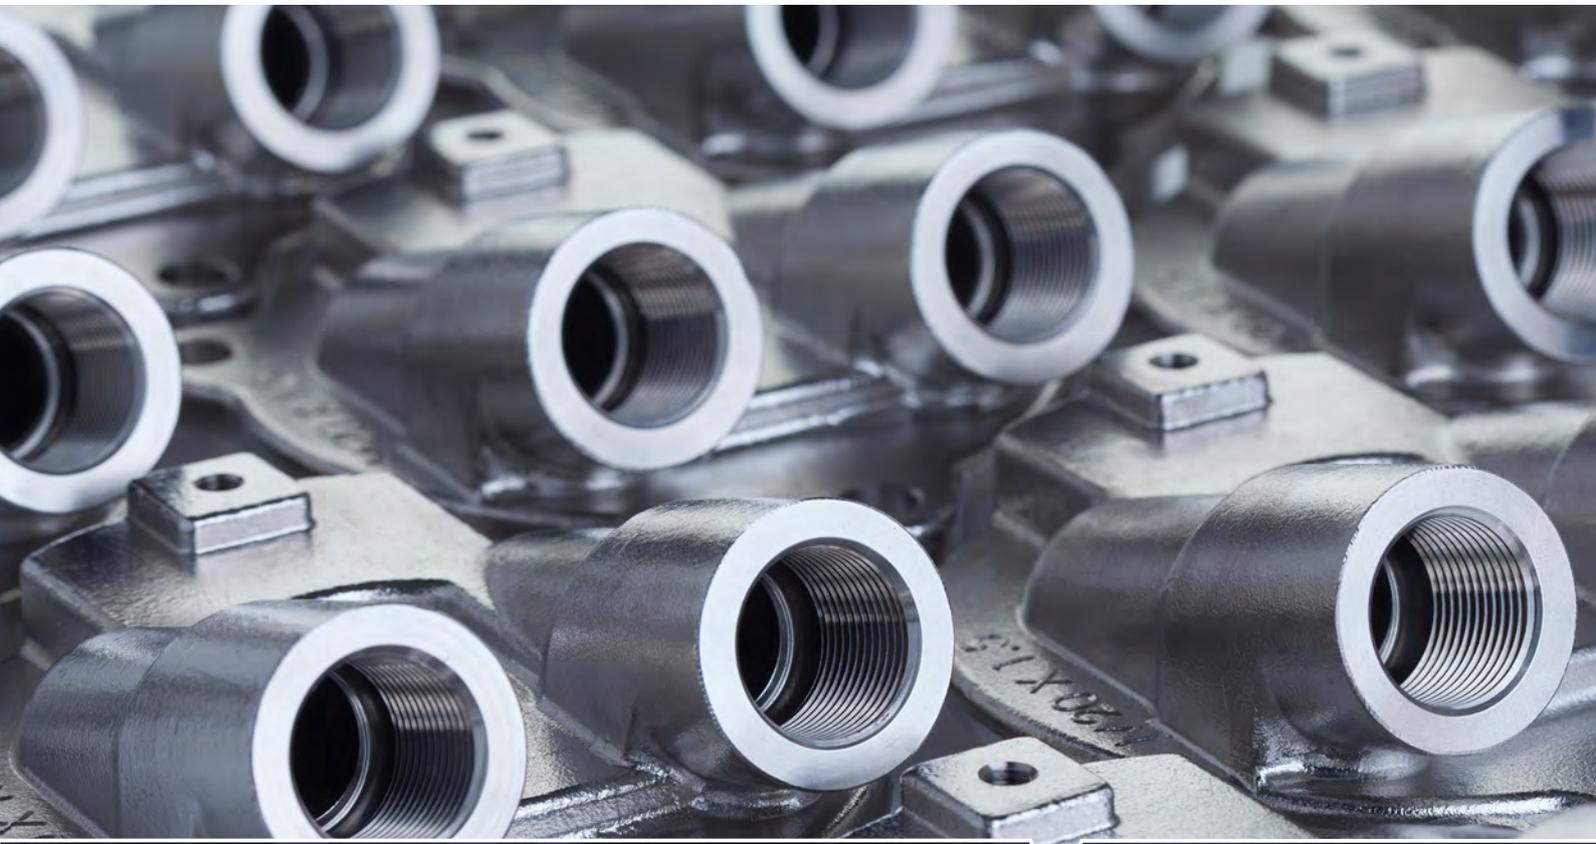

Our company links UK manufacturing and global outsourcing, striking a balance between the demands of high quality engineering and the drive for high volume cost effectiveness. Investacast's manufacturing facilities are well established, our specialist knowledge comprehensive.

We offer unrivalled manufacturing versatility when it comes to size, weight and choice of material.

The products we manufacture range from small, high volume items such as aluminum washers for the aerospace industry to high spec items such as ATEX Housings for offshore oil processing.

Our strength is adapting to our customers' specific requirements and having the knowledge and expertise manage each project depending on its needs.

## COMPLETE SOLUTION

### LOGISTICS, SERVICE, QUALITY

**As a one-stop service Investacast is the number one choice for design engineers and supply chain managers seeking a quality product and a quick turnaround.**

Clients appreciate the balance between technology and people that Investacast brings. An open minded approach is important - we appreciate that each project has its unique challenges and we pride ourselves on the flexibility we offer.

Investacast provides a full management service that covers each stage of the process. From consultation and design right through to the manufacture of parts, product validation, stock holding and shipping, we take care of it all. Underpinning our UK operations is a state-of-the-art automated UK facility, staffed by a team of skilled technicians and engineers.

Our specialist knowledge ensures a smooth manufacturing process for customers looking to outsource a complete supply solution – no import headaches, no communication problems, no problematic partnerships.

From manufacturing precision parts to outsourcing large volume production, Investacast offers versatility of product and client confidence. We eliminate the stress so you can maximize your manufacturing potential.
